SUMMARY

Software Engineer specialized in Front-End and Web Development. Builds scalable web portals, mini CRMs, and system-driven apps with API integration across multiple databases and role-based user flows. Delivers analytical dashboards via Power BI or custom code to support data-driven decisions.

EXPERIENCE

Property Shop Investment

June 2024 – Present

Software Engineer

- Developed external portals, mini CRMs, and internal systems using **React, Tailwind CSS, and Typescript**, integrated with 3 databases, featuring optimized API handling, role-based access, and tailored user experiences.
- Built modern animated landing pages and front ends for AI-powered solutions, enhancing interactivity and engagement.
- Delivered analytical dashboards using Power BI and custom code to support data-driven decision-making.
- Developed internal and external official websites using Next.js and TypeScript with strong focus on performance, accessibility, and SEO best practices.

Freelancer

August 2022 – June 2024

Software Engineer

- Developed responsive landing pages and WordPress site.
- Automated client workflows using a Python-based Telegram bot for Arazone.

TECHNICAL SKILLS

Front-End: React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind, Bootstrap, SASS, Framer Motion, GSAP, jQuery, Zustand, React Query, Material UI, Shadcn/UI, ECharts, Performance Optimization, Responsive Design, UX/UI.

API & Integrations: REST APIs, API Documentation, Postman, Swagger.

Data Analysis: Python, SQL, Power BI.

Version Control & Deployment: Git, GitHub, CI/CD, FileZilla.

Agile & Collaboration: Agile methodologies, Scrum, Jira, Confluence.

Other Tools & Platforms: AWS (SES, SNS), WordPress, Figma, Canva.

PROJECTS

PSAI | *React, MUI, Tailwind CSS, Axios, React Query* | Internal Project

2024

- * Developed the front end for a real estate platform supporting AI-assisted workflows, analytics, and automation.
- * Built responsive, modular UI components using React 18, Tailwind CSS, and Material UI under Agile methodology.
- * Handled complex API integrations from AI services and multiple CRMs involving computed JSON and ID-based data.
- * Implemented dynamic dictionaries to resolve ID mappings and ensure accurate data representation across the interface.

Emirati Hub Portal | *React, Tailwind CSS, Material UI, React Query, Axios* | Internal Project

2024

- * Developed a web-based portal to assist local agents in managing leads, property listings, units, and calendars.
- * Integrated data from three separate databases through CRM APIs with role-based access control.
- * Implemented a structured front-end architecture using React 18, Tailwind CSS, and Material UI.
- * Enhanced data fetching and performance through Axios and React Query with caching support.

PSI-International Portal | *React, MUI, Tailwind CSS, FullCalendar, React Query, Axios* | Internal Project

2025

- * Developed the front end of a role-based portal for managing international events, lead registration, and property access.
- * Implemented modular components for calendars, unit proposals, property search, surveys, and analytics dashboards.
- * Integrated CRM APIs and restructured data to support different user roles and ensure consistent behavior across portal.

Projects Dashboard | *React, Tailwind CSS, ECharts, React Query* | Internal Project

2025

- * Built a code-based dashboard to monitor project statuses, team capacity, and access Figma and live links.
- * Implemented cross-filtering for real-time interactive updates across charts and project data tables.

EDUCATION

Teesside University

Bachelor of Science in Computer Science

May 2023

Middlesbrough, UK
